ONE
SHOT

ENGINE STOP NOISE

- CLEANS & QUIETENS LIFTERS & TAPPETS
- REDUCES TICKING NOISE ON START UP

Product Code

51523

Product Size

325mL

Carton Qty.

6

ABOUT THE PRODUCT: Wynn's Engine Stop Noise quietens noisy valve lifters and stops ticking noise on start up. With its one shot easy-to-use treatment and backed by European technology, Wynn's Engine Stop Noise provides friction and wear protection to extend the life of your engine oil.

ADVANTAGES: Wynn's Engine Stop Noise cleans and frees up sticky lifters to quieten them and reduce ticking noise on start up. Wynn's Engine Stop Noise prevents formation of black sludge and deposits to improve cylinder compression and keep your engine oil clean.

BENEFITS: Wynn's Engine Stop Noise has been designed to provide the following benefits:

- Quietens noisy valve lifters
- Reduces ticking noise on start up
- Provides friction and wear protection
- Cleans and prevents black sludge and deposit build-up
- Prevents oxidation and premature thickening of the oil
- Compatible with all mineral & synthetic oils
- Safe for Catalytic Converters, DPF & other emission controls
- Suitable for Diesel Engines to extend oil life
- Easy to use one shot treatment
- Treats up to 6 Litres of oil

APPLICATIONS: Wynn's Engine Stop Noise is recommended for Petrol, Diesel, Hybrid & LPG engines, and is compatible with all mineral and synthetic oils.

DIRECTIONS FOR USE:

1. Add entire contents of Wynn's Engine Stop Noise to engine oil
