SHOT

# ULTIMATE ENGINE ANTI-WEAR

- WITH WYNN'S FRICTION PROOFING
- OPTIMUM ENGINE PROTECTION

Product Code

**82912**

Product Size

**325mL**

Carton Qty.

**6**

**ABOUT THE PRODUCT:** Wynn's Ultimate Engine Anti-Wear with patented Wynn's Friction Proofing technology, improves any engine oil to make it even better. Wynn's Ultimate Engine Anti-Wear provides a protective layer on metal parts that minimises engine wear, especially in cold start and stop/start driving conditions.

**ADVANTAGES:** Formulated using European technology, Wynn's Ultimate Engine Anti-Wear is an easy-to-use, one-shot treatment that is simply added to engine oil. It penetrates and bonds to metal surfaces providing exceptional friction and wear control.

**BENEFITS:** Wynn's Ultimate Engine Anti-Wear has been developed to provide the following benefits:

- Ultimate cold start protection to extend engine life
- Exceptional friction and wear control
- Extends engine life
- Reduces engine sludge and varnish build up
- Ideal for stop/start driving
- For all oil types
- Easy-to-use, one-shot treatment
- Treats up to 8 Litres of oil

**APPLICATIONS:** Wynn's Ultimate Engine Anti-Wear is compatible with all passenger & commercial Petrol, Diesel, Hybrid and LPG engine types, including both naturally aspirated or turbocharged engines. It is especially suitable for stop/start driving or for cold start protection.

#### **DIRECTIONS FOR USE:**

1. With the engine turned off, add entire contents of Wynn's Ultimate Engine Anti-Wear directly to the engine oil
2. Run vehicle for a short period and re-check oil level
3. For best results use at each oil change
