

ADD TO DIESEL

ONE
SHOT

DIESEL INJECTOR CLEANER

- SMOOTHES IDLING & RESTORES MAX POWER
- FOR POWER AND ECONOMY

Product Code

35318

Product Size

325mL

Carton Qty.

6

ABOUT THE PRODUCT: Wynn's Diesel Injector Cleaner's fast-acting formulation cleans dirty injectors and continues to prevent new deposits from forming for up to 5,000km's. With its easy to use one shot treatment and backed by European technology, Wynn's Diesel Injector Cleaner brings your engine back to life for smoother idling, increased power and better fuel economy. Wynn's Diesel Injector Cleaner protects against rust and corrosion while being safe for DPF and other emission controls.

ADVANTAGES: Wynn's Diesel Injector Cleaner moves through the fuel system quickly and safely removing deposits and reducing harmful black exhaust emissions. It cleans the injectors and helps restore the ideal injector spray pattern allowing more power and better acceleration.

BENEFITS: Wynn's Diesel Injector Cleaner has been developed to provide the following benefits:

- Increases engine power & fuel economy
- Smooths idling & cold starting
- Protects against rust and corrosion
- Easy-to-use, one-shot treatment
- Reduces black exhaust emissions
- Fast acting and cleans as you drive for up to 5,000km's
- Safe for DPF and other emission controls
- Capless fuel system compatible
- Treats up to 80 Litres of diesel

APPLICATIONS: Wynn's Diesel Injector Cleaner is suitable for use in all Diesel and Hybrid common rail and indirect injection systems, and Bio-Diesel.

DIRECTIONS FOR USE:

1. With the engine turned off, add entire contents of Wynn's Diesel Injector Cleaner to diesel fuel tank, preferably before filling with diesel to ensure thorough mixing of product
2. Use every 5,000km's
